Creating engaging content and managing all aspects of the show's production, including selecting topics, technical setup, and on-air delivery.
- Homebrewing Enthusiast: I have been perfecting my craft as a homebrewer for over two years. Developed and brewed a variety of unique handcrafted beer recipes, experimenting with ingredients and hops. Founded my own beer brand, 'Chinchiller,' - can be found on Instagram @chinchillerbrewing.

Also an active member of the University of Leeds Swing Society, participating in events and classes to connect with fellow enthusiasts and promote swing dance within the university community.

- Babysitting Experience Summers 2017 - present
  - I have gained valuable childcare experience by providing babysitting services during summers in Croatia for several years. During this time, I was entrusted with the care and well-being of my little cousins and relatives' children while they were on holiday. This experience has not only honed my childcare skills but also taught me the joyful importance of responsibility and creating a fun and secure environment for children.
